The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

≏, dew; o, overcast; t, thunder; p, passing temporary showers; /, strong wind.

SURVEY OF INDIA.

(*Vide* Rev. and Agri. Department No. 53—157-2, dated the 4th January 1901.)

MEMO. OF INSTRUCTIONS FOR APPLICANTS FOR THE PROVINCIAL SERVICE OF THE SURVEY OF INDIA.

1st.—Every candidate for the Survey of India must forward his application in writing to the Surveyor-General, accompanied by such certificates as to *age* (Baptismal Certificate required in case of European and Eurasian candidates), *moral character*, *education*, *soundness of health*, and *good eyesight* as will clearly establish his suitability for employment. The application must further be accompanied by *specimens of Plan and Free-hand drawing.** The candidate's name having been registered, he will be informed of the time and place of examination, when decided on. The examination papers will be issued from the Trigonometrical Branch Office in Dehra Dun.

2nd.—No application can be entertained from any individual whose age at the date of the completion of the examination will be under 18 or above 22 years, except in the case of natives, whose maximum age is fixed at 24 years. The Surveyor-General, however, has the power to extend the age-limits to 30 years in the case of those candidates who are at the time in pensionable service in the subordinate grades of the Survey of India. No person who is married or is likely to be soon married will be admitted unless of pure Asiatic origin. Candidates, if of European parentage, must be Statutory Natives of India and have at least passed the High School Pass examination or First Arts examination at an Indian University, having qualified in Algebra as one of the subjects, and if natives the F. A. Pass examination.

3rd.—Candidates must be prepared to undergo the examination detailed below, which will give them entrance to the Training School at Dehra. No candidate will be considered to have qualified unless he gets 50 per cent. of the marks in Mathematics and 30 per cent. of the total marks in drawing.

4th.—Examinations will be held in August as a rule. The most suitable of the candidates who qualify will be selected.

5th.—When under examination for the Department, the candidate must sign the Bond printed on the reverse of this paper.

6th.—The selected candidates will enter the Department as Probationary Sub-Assistant Superintendents, third grade, on a salary of Rs. 120 *per mensem*, and they must pass out of the Training School within a maximum limit of two years. They will not be confirmed in their appointments until they have served at least one year in a field party and have been well reported on.

7th.—As Surveyors are liable to much exposure and to work in trying climates, the medical certificate should particularly specify that the candidate is of good physique and is likely to stand hard work, such as riding and walking long distances. The medical certificate should be in the form as given overleaf, signed by a Medical officer in Government employ not lower in rank than Lieutenant. During his course at the Training School, should he prove to be, in the opinion of the Superintendent, Trigonometrical Surveys, physically unfitted for the Department, that officer may demand a further certificate of fitness.

QUESTIONS AND ANSWERS.

EXPENDITURE ON POLICE REFORMS.

The Hon'ble BABU CHATURBHOOJ SAHAY said:—

Will the Government be pleased to state if the whole or any portion of the Rs. 4,00,000 assigned for Police reforms in the current year's Bengal Government Budget has been, or is likely to be, utilised during the present financial year. If so, in what way?

The Hon'ble Mr. HARE replied:—

"Only a small sum of less than Rs. 30,000 has been spent out of the allotment of 4,00,000, and the balance will be made available for the year 1903-1904. It has been considered advisable to await the Report of the Police Commission before incurring any large increase of expenditure on Police reforms."

EXPENDITURE FOR EDUCATIONAL PURPOSES.

The Hon'ble BABU CHATURBHOOJ SAHAY asked:—

How does the Government propose to spend the sum of Rs. 10,00,000, allotted for Educational purposes in the current year's Bengal Government Budget?

The Hon'ble MR. EARLE replied:—

"Out of the special grant of 10,00,000 allotted in the current year's Budget for Educational purposes, Rs. 9,79,652 have been allotted under the heads shown in the Statement marked A, annexed. As it may not be found possible to spend the whole of the allotted sums within the current year, Rs. 93,450 have been sanctioned, from anticipated savings in this grant, for expenditure under the heads shown in the Statement marked B, annexed."

AGRICULTURAL BANKS.

The Hon'ble BABU CHATURBHOOJ SAHAY asked:—

What, if any, steps have been taken for the establishment of Agricultural Banks, for which provision has been made in the present year's Budget to the extent of Rs. 15,000?

The Hon'ble MR. EAGLE replied:—

"The provision of Rs 15,000 in the Budget, referred to by the Hon'ble Member, was intended to meet the pay and allowances, and cost of establishment, of an officer whom it was thought that it might be desirable to depute, during the current year, for the purpose of inspecting and reporting on Agricultural Banks opened in the Province. As a matter of fact, however, no such officer has been deputed for the purpose. Forty-eight Agricultural Banks have been opened up to date, of which 20 are in Government estates, 16 in Wards estates, and 12 in Private estates. Rupees 6,200 have been advanced for the Banks in the Government estates, Rs. 2,300 for those in the Wards' estates, and Rs. 2,214 for those in the Private estates."

REMOVAL OF SUB-DIVISIONAL OFFICES FROM RAJMAHAL.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, asked:—

Will the Government be pleased to state whether it is its intention to remove the sub-divisional offices from Rajmahal to Sahebganj, in the Sonthal Parganas?

The Hon'ble MR. HARE replied:—

"Government has at present no intention whatever of removing the sub-divisional offices from Rajmahal."

WATER-SUPPLY ALONG DISTRICT BOARDS OF HAZARIBAGH AND RANCHI.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, said:—

Will the Government be pleased to inquire from the District Officers of Hazaribagh and Ranchi whether along the District Board roads in those districts the supply of drinking-water is insufficient owing to the existing wells being situated too far from one another?

In view of the fact that only Rs. 1,003 in 1900-1901 and Rs. 1,593 in the year 1901-1902 were spent in the District of Hazaribagh, and Rs. 229 in the year 1900-1901 and Rs 1,860 in 1901-1902 in the district of Ranchi in the works of water-supply, will the Government be pleased to direct the District Boards of the said districts to give effect, to the extent desirable, to the suggestions of the Government contained in paragraph 27 of its Resolution reviewing the District Board Report for the year 1901-1902 and in paragraph 48 of its Resolution reviewing the District Board Report for the year 1894-1895?

The Hon'ble MR. COLLIN replied:—

"The Lieutenant-Governor, who attaches much importance to the matter, has already initiated throughout the Province inquiries similar to those suggested by the Hon'ble Member, and steps will be taken to ascertain whether more should be done to improve the water-supply along the District Board roads everywhere, as suggested in the Resolution reviewing the District Board reports for 1901-1902. Furthermore, Government has recently issued orders with the object of encouraging District Boards to deal with the question of water-supply more methodically than they have in the past."

PLAGUE IN BHAGALPUR.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, asked:—

Has the attention of the Government been drawn to the fact that plague has appeared in Bhagalpur? If so, will the Government be pleased to allot to it such portion of the plague grant as after inquiries from the local authorities it may deem necessary?

The Hon'ble MR. COLLIN replied:—

"Government has been informed that plague has appeared at Bhagalpur. The outbreak happily is, so far, not serious. It is the duty of Municipalities to provide funds for plague prevention, and assistance is given by Government when they are unable to do what is necessary from their own resources. No application for assistance has yet been received from Bhagalpur."

HOUSES OF ILL-FAME IN VICINITY OE EDUCATIONAL INSTITUTIONS.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, asked:—

Has the attention of the Government been drawn to the existence of houses of ill-fame in the vicinity of Educational Institutions in the Mufassal, such as Bhagalpur, Bankipore, &c., and to the necessity of their removal? If so, will the Government be pleased to adopt measures to enforce their removal from such quarters?

The Hon'ble MR. HARE replied:—

"Government is aware that houses of ill-fame are to be found in the vicinity of Educational Institutions at Bankipore, Bhagalpur, and elsewhere. Local officers do what they can to remove and control them, but the matter is one of great difficulty, and unless the inmates break the law, their removal can hardly be enforced."

THE PROVINCIAL SERVICE.

The Hon'ble Dr. ASUTOSH MUKHOPADHYAYA asked:—

Has the attention of the Government been drawn to the amended Article 119 of the Civil Service Regulations, 3rd Edition reproduced as Article 98 of the 4th Edition), according to which vacancies in privilege leave should be filled up by an officer of the same district, and that in the case of an appointment held ordinarily by a member of the Civil Service or a Commission, where there is no such officer available on the spot, a member of the Provincial Service should be placed in charge of the vacant appointment?

Is it the case that last year, during the absence, on privilege leave, of Messrs. J. H. E. Garrett, Purna Chandra Mitter, R. C. Hamilton, Baroda Charan Mitter, and W. H. H. Vincent, junior officers, were brought from other districts to officiate in their places, although there were many experienced members of the Provincial Service in the districts in which the vacancies occurred?

Is it a fact that, in two of these cases, namely, the absence on privilege leave of Messrs. J. H. E. Garrett and Baroda Charan Mitter, the vacancies were for not more than six weeks, in which case the Government of India specially enjoined that the rule should be observed, and prescribed a return showing the deviations?

Did the Government in any case, after the amendment of Article 119 of the Civil Service Regulations, referred to above, appoint any member of the Provincial Service to officiate in a privilege leave vacancy of an appointment ordinarily held by a member of the Civil Service?

The Hon'ble MR. HARE replied:—

"The Government is aware of the provisions of the Article referred to. It is a fact that junior officers were not at the time in the station were appointed to officiate for the gentlemen referred to, owing to the impossibility of making any other suitable arrangements. It is also true that the privilege leave of Messrs. Garrett and B. C. Mitter was of not more than six weeks' duration.

"With regard to the last sentence of the question, it is the case that Babu Syam Chand Dhur was appointed to officiate as District and Sessions Judge of Dacca in April last in the place of Rai Jogesh Chunder Mitter, Bahadur, on short privilege leave, and Babu Rajendra Coomar Bose has recently been appointed to officiate as Additional Judge of Burdwan in the chain of a privilege leave vacancy. Both these appointments are usually held by members of the Civil Service."

DEPUTY MAGISTRATES AND PENSION RULES.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA asked:—

Is the Government aware that Article 409 of the Civil Service Regulations, 3rd Edition (reproduced as Article 375 of the 4th Edition), which regulates the conditions of qualifying service of Deputy Magistrates now, is likely to cause hardship in the case of those members who were appointed before the re-organisation of the service and the creation of the eighth grade, inasmuch as such officers had sometimes to serve for two or three years, or even longer, as Probationers, Officiating Deputy Magistrates, and *sub. pro tem.* Deputy Magistrates, before confirmation, and in individual cases the period of non-qualifying service, even in the case of officers who pass the Departmental Examinations promptly, was sometimes as long as three years, or more, from the time of appointment as Probationers?

Inasmuch as the difficulty has been considerably removed by the recent re-organisation in the case of officers who have been appointed since, will the Government be pleased to consider the advisability of further amending the rule by which the hardship to the officers who were appointed before the re-organisation may be removed?

The Hon'ble MR. HARE replied:—

"The Hon'ble Member seems to be under some misapprehension as to the facts. Under Article 4 of the Civil Service Regulations, an officer's claim to pension is regulated by the rules in force at the time when he resigns or is discharged by Government. Article 375 therefore applies to all Deputy Magistrates at present in the service of Government, and the hardship complained of by the Hon'ble Member does not exist."

TRANSFER OF CIVIL AND CRIMINAL APPELLATE JURISDICTION OF PALAMAU TO GAYA.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA asked:—

Has the Government received any memorial relating to the transfer of the Appellate jurisdiction in Civil and Criminal matters within the district of Daltonganj to the District and Sessions Judge, Gaya? If so, what action has been taken thereon?

Will the Government be pleased to consider the advisability of such a transfer on the ground of convenience to litigants?

The Hon'ble MR. HARE replied:—

"A memorial was submitted to Government by one Babu Prakash Chandra Sirkar, praying for the transfer of the Civil and Criminal Appellate jurisdiction in the district of Palamau from the Judicial Commissioner of Chota Nagpur to the District and Sessions Judge, Gaya.

"The proposed transfer is one that could only be made on the strongest grounds of administrative convenience, and on the information before him, the Lieutenant-Governor is not satisfied that a sufficient case for the change has been established."

THE CHITTAGONG PORT COMMISSIONERS' (AMENDMENT) BILL, 1903.

The Hon'ble MR. INGLIS presented the Report of the Select Committee on the Bill to amend the Chittagong Port Commissioners' Act, 1887.

The Hon'ble MR. INGLIS also moved that the Report be taken into consideration, and that the clauses of the Bill be considered in the form recommended by the Select Committee. He said:—

"Before moving this resolution, I will, with your permission, offer a few remarks. The Select Committee have accepted the Bill as introduced, subject to one small verbal alteration in clause 3.

"At the last meeting of the Council the Hon'ble Dr. Asutosh Mukhopadhyaya suggested that the Committee should give a definition to the words 'sea-going vessel.' The Committee considered this point, but it seemed that the words hardly require definition. A 'sea-going vessel' is one which goes to sea, and it seems difficult to carry the definition further. It does not appear likely that any question will arise as to whether a particular vessel or a class of vessels should be held to be sea-going or otherwise. Should, however, such a thing occur, it may be dealt with under the provisions of section 44 of the Act. I would draw the attention of Hon'ble Members of the Council to the provisions of this section under which the Local Government has very wide discretionary power, and can (I quote from the Act) 'grant exemption from the payment of any tolls, charges, dues, or rates leviable under this Act.' It would therefore be a simple matter for Government to pass orders exempting from the proposed dues any vessels or class of vessels which may be shown to be only technically 'sea-going.'

"Since the Report of the Select Committee was issued, certain amendments have been suggested by the Hon'ble Rai Tarini Pershad, Bahadur. They are seven in number, and I propose to accept six of them, which will be useful. I shall have to oppose one of the proposed amendments, as I consider that it is contrary to the intention of the Bill.

"The Hon'ble Mr. Gupta will also bring forward an amendment in clause 3 of the Bill, *viz.*, to alter the wording of the latter part of sub-section (*1*) of the proposed section 33A, and this will, I think, be a distinct improvement. It was not to be expected that a measure of this nature, the object of which is to require certain people to pay more than they are doing at present for such advantages as the Port of Chittagong offers to their trade, would be received without objection. Representations have been made on behalf of the B. I. S. N. Company that the proposed due will favour the Inland Steamer Companies and the A.-B. Railway in competing for the Calcutta trade by the Chandpur route. I do not think myself that this objection has any great weight, but it is one of the matters that will have to be held in view in determining the actual rates to be charged on different classes of goods. The Agent of the Railway, who is doubtless more interested in the general home trade of the port than in the Calcutta trade, joins Messrs. David and Co., Messrs. Finlay, Muir and Co, and Messrs. Ewing and Co., in urging that the port is still young or rather that its growth is stunted, that it needs to be nursed, and that any extra dues will cause the trade to leave it.

"The matter has long had the consideration of Government and it is quite plain that the revenues of the port must be increased, unless it is to remain in a chronic state of dependence on the aid the Local Government may be able and willing to give. At the same time it is hoped that the trade will not succumb under the small additional burden which the powers asked for in this Bill enable the Commissioners of the Port to impose. I have therefore, Sir, to ask that the Bill, as reported by the Select Committee, may now be taken into consideration."

The Motion was put and agreed to.

Clause 2.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, moved that in line 1 of sub-clause (*b*) of clause 2 of the Bill, as amended by the Select Committee, for the words "a person" the words "another of the Commissioners" be substituted, and that in line 2 thereof for the words "such person" the word "him" be substituted. He said:—

"Section 5 of the Chittagong Port Commissioners' Act, says:—

'5. There shall be nine Commissioners, of whom six shall be appointed by the Local Government, and three shall be elected by such body, bodies or firms engaged in Commerce in the Port as the Local Government may, with the previous sanction of the Governor General in Council, from time to time direct.'

"Having regard to these provisions and having regard particularly to the fact that there is no provision in the Act under which any outsider can be brought in to take the place of the Vice-Chairman, the use of the words 'a person' here will allow an outsider or stranger being appointed, which, I submit, is not desirable. I think that when the Vice-Chairman goes on leave, or is absent temporarily or otherwise, his place ought to be taken by one of the Commissioners, and as section 10 says 'the Local Government shall appoint a Vice-Chairman from amongst the Commissioners,' I submit there ought to be a provision in the Act that when the Vice-Chairman is absent on leave or otherwise, one of the Commissioners should be appointed to take his place. If there be no such provision, I submit that, having regard to the other provisions of the Act which still remain in force, there might be an anomaly under the law which might create difficulty. If among the Commissioners there are people who can be allowed to officiate for the Vice-Chairman, there is no reason why a stranger should be introduced. Besides, these persons who are already Commissioners have experience of the work in all departments, and this is an additional reason why a selection should be made preferably from amongst them Of course it might be said that as there are only nine Commissioners, and if one of them has to take the place of the Vice-Chairman the

others will find difficulty in their duties; but I submit there are provisions under the law, and there might be provisions made, if necessary, for either electing or nominating a Commissioner to take the place of the Commissioner who acts as Vice-Chairman. Therefore I submit that it is desirable that the appointment should be made from amongst the Commissioners; and that an outsider should not be taken to fill the place of the Vice-Chairman.

"Having regard to all the facts and circumstances and the constitution of the two Institutions—I mean the Calcutta Port Commissioners and the Chittagong Port Commissioners—I submit that no analogy should be taken from the Calcutta Port Commissioners' Act. There, no doubt, we have the words 'a person,' but then their constitution is very different, and their Vice-Chairman is appointed by Government, though practically when he is appointed Vice Chairman he becomes a Port Commissioner. For these reasons, I submit, the amendment ought to be accepted by the Council."

The Hon'ble BABU JOY GOBIND LAW said:—"I regret I am unable to accept the amendment of my hon'ble friend on my right. The Port Commissioners are very frequently, if not always, very busy men, and if the selection were confined to them, it might turn out that none of them were willing to act for the Vice-Chairman. By leaving the wording as it stands in the Bill, the Port Commissioners are not excluded from the appointment, but it only gives a wider discretion to the Local Government."

The Hon'ble MR. INGLIS said:—"I accept the amendment proposed, for the reason that it seems to me that under section 10 of the Act, as it stands at present, it is necessary that the person appointed should be first a Commissioner. It says: 'The Local Government may, from time to time, appoint one of the Commissioners to be Chairman and another of the Commissioners to be Vice-Chairman.' I think, therefore, that it follows that it is necessary that a person should be a Commissioner before he is qualified to be appointed Vice-Chairman."

The Hon'ble MR. GUPTA said:—"I think the objection which has been put forward by the Hon'ble Babu Joy Gobind Law may be met in this way. If the Vice-Chairman goes on leave and there is a vacancy, and if the Government is willing to introduce a stranger, they can first appoint him a Commissioner under section 9, and then appoint him Vice-Chairman under section 10. So that this amendment would not preclude the Government, in case of necessity, from putting in an outsider: the only thing necessary is that he should be first appointed a Commissioner and then appointed Vice-Chairman. The one may precede the other by even an hour."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"In addition to the reasons already urged in support of the amendment, I would like to submit a further reason, and that is that if you have a stranger as Vice-Chairman, it will be impossible to work the Act.

"The provisions of section 17 of the Act are as follows:—

'17. With the previous sanction of the Local Government, the Commissioners may make rules consistent with this Act and with the Indian Ports Act, 1875, for any of the following purposes:—

(*a*) for regulating, declaring, and defining the wharves, quays, stages, jetties, and piers on and from which goods shall be landed from and shipped in vessels within the port;

(*b*) for the safe and convenient use of such wharves, quays, stages, jetties, piers and of landing-places, tramways, warehouses, sheds and other works in and adjoining them;

(*c*) for regulating the reception and removal of goods within and from the premises of the Commissioners, and for declaring the procedure to be followed in taking charge of goods which may have been damaged before landing or may be alleged to be so damaged;

(*d*) for the mode of payment of tolls, charges, dues and rates levied under this Act;

(*e*) for providing water for ships and for licensing and regulating water-boats within the port;

(*f*) for the removal of wrecks from the port or the river and keeping clean the port, the river, the bank of the river and the works of the Commissioners, and for preventing filth or rubbish being thrown therein or thereon;

(*g*) for otherwise carrying out the purposes of this Act;

and may from time to time, with the like sanction, repeal or alter such rules.

'Such rules when sanctioned shall be published in such manner as the Local Government may direct, and shall thereupon have the force of law.'

"These rules have to be made by the Commissioners, and if the Vice-Chairman is not a Commissioner he can take no part in the framing of these rules. It seems to me quite clear that section 10 contemplates that the Chairman and Vice-Chairman should be Port Commissioners, and that rule ought to hold good even when an officiating appointment is made."

The Hon'ble MR. APCAR said:—"I regret I must oppose the motion. I agree with the remarks which have been made by the Hon'ble Babu Joy Gobind Law. The effect of the wording, as it stands in the Bill, is to leave it to the discretion of the Commissioners to appoint a person who will, in their opinion, carry on the duties satisfactorily. It does not say that they shall not appoint one of the Commissioners; they are quite at liberty to appoint one of themselves as Vice-Chairman. I think it would be a mistake to limit them to a choice among themselves. The use of the words 'a person' leaves them greater discretion, and they would no doubt, wherever possible, always appoint one of themselves before any outsider."

The Motion was then put and agreed to.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, also moved that in sub-clause (*c*) of the same clause, for the word "person" the word "Commissioner" be substituted. He said:—

"I need hardly say anything in connection with this amendment, which follows as a necessary consequence of the other."

The Motion was put and agreed to.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, also moved that the following be added as sub-clause (*3*) to the same clause, namely:—

'(*3*) A temporary vacancy in the office of a Commissioner occasioned by the absence on leave of the Vice-Chairman shall, if and when necessary, be filled up by election or appointment in the manner hereinbefore provided in section 9.'

He said:—"Section 9 has reference to the election when necessary when, for instance, the Vice-Chairman takes leave for six or eight or ten months, and when one of the Commissioners has to take his place, then that Commissioner's place has to be filled up by somebody. Therefore it is desirable that there should be a distinct provision in this Act to the effect that such temporary vacancy might be filled up by election or nomination as specified in section 9. That of course is necessary; but I want to put in the words 'if and when necessary,' simply because there might be instances in which it would not be necessary at all to make any appointment, as for instance when the Vice-Chairman takes leave for say three weeks, in which case it may not be necessary to make any appointment. Therefore, this is a matter which ought to be left to depend upon the circumstances in each particular case; and it is for this reason that I propose to use the words 'if and when necessary.' This amendment also depends upon the amendment which has already been carried."

The Hon'ble MR. INGLIS said:—"I accept this amendment."

The Hon'ble Dr. ASUTOSH MUKHOPADHYAYA said:—"I wish to point out to my hon'ble and learned friend who has moved this amendment that its acceptance will lead to difficulties which he does not foresee.

"You will observe that section 9 of the Act says:—

9. 'Any casual vacancy in the office of a Commissioner occasioned by the death, resignation, or disqualification of such Commissioner shall be filled up within one month

by the Local Government, if the office vacated was that of a Commissioner appointed by the Local Government, or

by the body, bodies or firms for the time being invested by the Local Government with the power of electing Commissioners under this Act, if it was that of an elected Commissioner,

in the same manner and subject, as far as may be, to the same provisions as are applicable in the case of original appointments and elections of Commissioners:

Provided that the Commissioner so appointed or elected shall retain his office so long only as the vacating Commissioner would have retained it if such vacancy had not occurred.'

"Section 7 is as follows:—

7. 'Every Commissioner shall, unless he becomes in the meantime disqualified under section eight, hold office for a term of two years; and any person on ceasing to be a Commissioner may, unless he has become disqualified under section eight, be re-appointed or re-elected.

'The Local Government may at any time accept the resignation of any Commissioner.'

"Then section 8 says:—

8. 'No person shall be qualified to be a Commissioner during such time as he—

(*a*) is an uncertificated bankrupt or insolvent, or

(*b*) holds any office or place of profit under the Commissioners, or

(*c*) has, directly or indirectly, any share or interest in any work done by order of the Commissioners, or in any contract or employment with, by, or on behalf of, the Commissioners;

and any Commissioner who—

(*d*) becomes disqualified for any of the aforesaid reasons, or

(*e*) is absent from the meetings of the Commissioners for a period exceeding twelve consecutive months, or without the permission of the Commissioners from six consecutive meetings of the Commissioners, or

(*f*) is sentenced to imprisonment,

shall cease to be a Commissioner and his office shall thereupon become vacant:

Provided always that no Commissioner shall vacate his office by reason only of his—

(*g*) having a share in any joint-stock company which shall contract with, or be employed by, or on behalf of, the Commissioners, or

(*h*) having a share or interest in any newspaper in which any advertisement relating to the affairs of the Commissioners may be inserted, or

(*i*) being interested in any loan of money to the Commissioners.'

"Suppose a person has been appointed Commissioner for two years, and he is appointed Vice-Chairman, and after he has been in office for three months he asks for leave of absence for three months. My hon'ble and learned friend suggests that the Local Government, if he is a nominated Commissioner, or the body who have elected him if he is an elected Commissioner, should have power to fill up the vacancy. He assumes that there is a vacancy, but there is no vacancy because before there can be a vacancy the Commissioner must be absent without notice for a certain period. Suppose you appoint a successor; then under section 9 that successor will be entitled to remain in office for the remaining term of his office; that is to say, although there is a vacancy for only three months, the Commissioner appointed to succeed him will be entitled to remain for the remaining 21 months. He will say: 'I was appointed to fill the vacancy, and I am entitled to remain till the end of the term.' If this amendment is carried, it will be necessary to put in a proviso to the following effect: 'Provided that the person so elected or appointed shall vacate his office upon the expiry of the leave of absence granted to the Vice-Chairman.' I hope my hon'ble and learned friend who has moved this amendment and the Hon'ble Member in charge of the Bill will consider this suggestion."

The Hon'ble RAI TARINI PERSHAD, BAHADUR, in reply said:—"Having heard my hon'ble and learned friend, I am prepared to accept the proviso proposed; of course my amendment remains, subject to this proviso."

The Hon'ble MR. GUPTA said:—"I submit that the proviso suggested by the Hon'ble Dr. Asutosh Mukhopadhyaya is not necessary, because it is already implied in the words of the amendment proposed. It runs thus: 'A temporary vacancy in the office of a Commissioner, occasioned by the absence on leave of the Vice-Chairman shall, if and when necessary, be filled up by election or appointment in the manner hereinbefore provided in section 9.' It is a temporary vacancy which is to be filled up, so that if the Vice-Chairman has taken leave for three months, the new appointment will be for only three months, and will naturally terminate at the expiration of three months. I do not think it will be possible to construe the amendment in any way other than the words obviously imply."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"I do not know whether the Hon'ble Member has considered the proviso to section 9, which is as follows:—

'Provided that the Commissioner so appointed or elected shall retain his office so long only as the vacating Commissioner would have retained it if such vacancy had not occurred.'

"If there is a vacancy, say, for even three months, as soon as there is a vacancy and a Commissioner is appointed, he retains his office for the remainder of the term of the original Commissioner; and if the original Commissioner was appointed for two years, and only six months have run out, when he comes back the man who succeeded him may say: 'I shall remain in office for the remaining 18 months.' It is with a view to avoid any such possible difficulty that I put forward this proviso."

The Hon'ble MR. GUPTA said:—"I still see no reason to modify my opinion, and for this reason that the appointment, by its terms, will be for the period of vacancy only, say three months. The two sections must be read together. This new section that we propose to put in will restrict and modify the other section. If there is a general provision, which in the same Act is varied by a special provision, the general provision must be read as restricted by the special provision."

The Hon'ble the PRESIDENT said:—"I shall first put the amendment to the Council, and after that submit the proviso."

The Motion that the following clause be added as sub-clause (3) to clause 2 of the Bill was then put and agreed to.

'(3) A temporary vacancy in the office of a Commissioner occasioned by the absence on leave of the Vice-Chairman shall, if and when necessary, be filled up by election or appointment in the manner hereinbefore provided in section 9,'

The Hon'ble the PRESIDENT said:—"The next motion is that of the Hon'ble Dr. Asutosh Mukhopadhyaya, that to the clause which has just been passed by the Council the following proviso be added:—

'Provided that the person so elected or appointed shall vacate his office upon the expiry of the leave of absence granted to the Vice-Chairman.'

The Motion being put, the Council divided:—

So the Motion was carried.

Clause 3.

The Hon'ble MR. GUPTA moved that in sub-clause (1) of clause 3 [33A] for the words "imported into or exported from the port in sea-going vessels" the words "landed from or shipped into any sea-going vessel lying or being within the limits of the port, whether such goods shall or shall not be so landed or

shipped at any wharf, quay, stage, jetty or pier belonging to the Commissioners," be substituted. He said:—

"I have only a few words to say in explanation of this amendment. Sub-clause (*1*) of clause 3 says:—

'The Commissioners may, with the previous sanction of the Local Government, by notification, impose a river due on all goods imported into or exported from the port in sea-going vessels.'

that is to say, it is intended to impose this river due on all goods imported into or exported from the port in sea-going vessels.

"Under a reasonable construction of these words I presume no goods should be made liable to be due unless they were imported or exported in sea-going vessels lying in or entering within the limits of the port; but it is possible to put a different construction on the words and to contend that all goods which are conveyed by country boats from the interior of the district and pass through the limits of the port to ships lying outside the limits of the port, or goods conveyed through the limits of the port from ships outside to the interior of the district, may also be subject to the river due. This question was raised in Select Committee by the Hon'ble Maulvi Seraj-ul Islam, who represents that division, and had received some instructions from the People's Association there. In the absence of any definite information as to the condition under which goods are exported from or imported into Chittagong, and in the absence of any definite suggestion as to the insertion of these words in the Bill, the Select Committee was then not in a position to adopt any amendment. Since then I have, on examining the Calcutta Port Act, noticed that there is a due exactly corresponding with the river due which this Bill proposes to impose in Chittagong, and the language of the Calcutta Port Act, section 108, is as follows:—

'108. If, on the preparation of the estimate of any year, it shall appear that the estimated income of the Commissioners for such year, after deducting therefrom the estimated expenditure of such year to be incurred under this Act, will be insufficient for the payment of the sums which, under the provisions of this Act, will be payable during such year to the Secretary of State for India in Council and to the holders of debentures under this Act or any enactment hereby repealed; or if, at any time in the course of a year, it may appear that the actual income of such portion of the year as may have then elapsed and the estimated income of the residue of such year, after deducting therefrom the actual expenditure of such past portion and the estimated expenditure of such residue, will be so insufficient, then and in every such case the Commissioners shall, upon the requisition of the Local Government, from time to time and to the extent requisite in every case, charge upon all goods landed from or shipped into any vessel lying or being within the limits of the port, whether such goods shall or shall not be so landed or shipped at any dock, wharf, quay, stage, jetty, or pier belonging to the Commissioners, such tolls, dues, rates and charges in addition to, or other than, those, prescribed by any scale of tolls, dues, rates and charges for the time being in force under the provisions of sections one hundred and three to one hundred and seven (both inclusive) as will, when added to the said income of the year, suffice as nearly as may be for the payment of the said sums in full.'

"The language of this section makes it perfectly clear that in order to make goods liable to this special due, the vessels by which they are exported or imported must lie or be within the limits of the Port. I think that as the language of the Calcutta Port Act makes the meaning of the section perfectly clear, and is not open to any objection, we may safely adopt it also for the Chittagong Port. It would not be possible for vessels to evade this due by anchoring outside the port limits, because, if this is habitually done, there is a section in the Chittagong Port Act by which the limits of the Port could always be extended. Section 3 of Act IV of 1887 says:—

'The Local Government may by notification define the limits of the port for the purposes of this Act, and may from time to time, by a like notification, alter such limits.

'Such limits may extend to any part of the navigable approaches to Chittagong, and may include any wharves, quays, stages, jetties, piers, tramways, warehouses, sheds and other works made on behalf of the public for the convenience of traffic, for the safety of vessels, or for the improvement, maintenance, and good government of the port or river, whether within or without high-water mark, and (subject to any rights of private property therein) any portion of the shore or bank within fifty yards of high-water mark.'

"It is one thing to charge this river due on ships which enter the Port in which facilities and benefits are afforded by the Port Commissioners, and another thing to levy it on all goods which are exported or imported by vessels which do not enter the Port at all, and as the amendment which I propose does not alter the scope of the proposed Bill, but simply seems to make the meaning of the section clear, namely, that country boats laden with goods or merchandise, and simply passing through the Port, shall not be subject to the due, I trust that the Council will agree with me in thinking that the language of the Calcutta Port Act is a safe guide, and that we may adopt it in preference to the words of the Bill as it now stands, which might possibly lead to disputes and difficulty."

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, said:—"I beg to support the amendment proposed by the Hon'ble Mr. Gupta, which, if carried, will make the point clear and remove the apprehension that country boats, by merely passing through the limits of the port, will be liable to pay this river due. This is a piece of legislation undertaken for the benefit of the Port Commissioners, and care should be taken to guard against their taking undue advantage of this power to levy extra dues."

The Hon'ble MR. INGLIS said:—"I accept the amendment of the Hon'ble Member. The wording of the Calcutta Port Act is quite clear and may, I think, be safely adopted."

The Motion then was put and agreed to.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, moved that in sub-clause (*1*) of clause 3 (33A) after the words "all goods" the words "or any particular goods or class of goods" be inserted. He said:—

"I will endeavour to make the position clear as far as I can. We know very well the object of the present legislation, which has been clearly pointed out in the Statement of Objects and Reasons. There has been a great falling off in the income of the Port Commissioners. There has been a great deficit, owing to which it has been necessary to legislate in this connection. But there may be circumstances later on when the Port may be in a flourishing condition: there may be surpluses, and the necessity which now leads us to legislate may altogether vanish; and therefore, if we were to say after the words 'all goods' 'or any particular goods or class of goods,' that is to say, if we give these Commissioners a charge on all goods or any particular class of goods, as the case may be, they may in fact later on, when they find that it is not necessary to levy a charge on all kinds of goods, desist from doing so. I would draw the attention of the Council to sections 108 and 109 of the Calcutta Port Act, 1890. They run as follows:—

'108. If, on the preparation of the estimate of any year, it shall appear that the estimated income of the Commissioners for such year, after deducting therefrom the estimated expenditure of such year to be incurred under this Act, will be insufficient for the payment of the sums which, under the provisions of this Act, will be payable during such year to the Secretary of State for India in Council, and to the holders of debentures under this Act or any enactment hereby repealed; or if, at any time in the course of a year, it may appear that the actual income of such portion of the year as may have then elapsed and the estimated income of the residue of such year, after deducting therefrom the actual expenditure of such past portion and the estimated expenditure of such residue, will be so insufficient, then and in every such case the Commissioners shall, upon the requisition of the Local Government, from time to time and to the extent requisite in every case, charge upon all goods landed from or shipped into any vessel lying or being within the limits of the port, whether such goods shall or shall not be so landed or shipped at any dock, wharf, quay, stage, jetty or pier belonging to the Commissioners, such tolls, dues, rates and charges in addition to, or other than, those prescribed by any scale of tolls, dues, rates and charges for the time being in force under the provisions of sections one hundred and three to one hundred and seven (both inclusive) as will, when added to the said income of the year, suffice as nearly as may be for the payment of the said sums in full.

'109. Such tolls, dues, rates and charges shall be fixed and adopted in accordance with a resolution passed by the Commissioners at a meeting, and shall be submitted to the Local Government; and if the same shall be approved by it shall be published in the *Calcutta Gazette*, and shall forthwith come into operation and remain in operation until altered or

revoked by the Commissioners in meeting, with the sanction of the Local Government: and shall be leviable and recoverable in like manner as any other tolls, dues, rates and charges payable under this Act.'

"Here we have a provision to the effect that the Commissioners may levy charges on all goods. Later on we find in 1895 the Government desired to make an alteration in the law, and by section 9 of Bengal Act IV of 1895 they modified the section. The reason for this alteration was this: when the Calcutta Port was in a flourishing condition, and when the necessity for additional charges ceased, the Legislature was obliged, having regard to the reasonableness and fairness of the thing, to make the alteration. I thereupon humbly submit, for the consideration of the Council, that we should add a similar provision in this Bill to answer the purposes for which this Act IV of 1895 was afterwards passed. Of course there may be a very good object in putting the words 'all goods' and omitting the words 'or any particular goods or class of goods,' but what I submit is, that we must look also to the circumstances which may possibly arise later on; and if we have before us a sufficient safeguard against an arbitrary exercise of this discretion by the Commissioners, I do not see any reason why this provision should not be made here. Bye-laws are no law, rules are no rules, and schedules are no schedules, unless they are sanctioned by the Local Government; so here we have the guardian angel and sufficient safeguard against all arbitrary exercise of discretion by the Commissioners. I see no harm whatever in this amendment being accepted."

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, said:—"I am sorry I have to oppose this amendment. If this amendment is carried, the effect will be that the Commissioners will be empowered to levy dues upon any particular class of goods they please and exempt any others they please. I may remind the Council that the Port Commissioners, in their correspondence, petitioned the Government to exempt tea from the payment of river dues. I find from a reference to the correspondence that both the Government of Bengal and the Government of India overruled that prayer, the Government of India seeing no reason for specially exempting tea from the proposed river dues. From this fact, I think, it may be taken for granted that if this power is given to the Port Commissioners, I am afraid they may exercise it arbitrarily. I submit that we ought not to give them this power."

The Hon'ble MR. INGLIS said:—"I am unable to accept this amendment. The intention of the Bill is that if a due is to be levied at all by the Port Commissioners, it must be levied upon all classes of goods. That was especially insisted upon by the Government of India. It was at first proposed to charge either on all goods or on certain goods, but the Government of India objected to that proposal, and the Bill has been worded so that the Port Commissioners shall not have power to levy dues on certain goods only. They will have the power, however, of varying the due from between one anna to four annas a ton on a special class of goods. There will still remain power with the Local Government under section 44 of the Act, in special cases, to exempt certain goods, but it is not intended that the Port Commissioners should have the discretion of omitting any class of goods from the dues. I therefore oppose the amendment."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"I hope I may say without impropriety that the opposition to this amendment takes me by surprise. According to the Bill as it now stands, if the Commissioners impose a river due, it must be a due in respect of all goods, and the rate must also be one uniform rate. I will read the section. It says: 'The Commissioners may, with the previous sanction of the Local Government, by notification, impose a river-due on all goods imported or exported into or from the port in sea-going vessels, and the rate of the said due shall not exceed four annas, nor be less than one anna for each ton of goods.' So that if they impose a rate, it must be upon all goods, and it must be the same rate,

varying from four annas to one anna in respect of all goods. The amendment suggests that the Port Commissioners should have discretion in the matter, and that if the river due be imposed, it need not necessarily be upon all goods, but it may be, as my hon'ble and learned friend proposes, upon 'any particular goods, or class of goods.' It is said that if you do that, you vest the Commissioners with the exercise of discretion in the matter, and that their past conduct has shown that they are not to be trusted. I have not the pleasure of knowing the Commissioners of Chittagong, but I know very well that before the Commissioners can exercise the power, they must previously obtain the sanction of the Local Government; and if the Commissioners cannot be trusted, I hope the Local Government may be trusted. But it is worse than that. If you look at sub-clause (*3*) of section 3 you will find words similar to these very words to which objection is taken: 'Subject to the limits enacted by the foregoing sub-section, the Commissioners may, with the previous sanction of the Local Government, at any time, or from time to time, by notification, raise or reduce the rate to be imposed, whether generally or on any particular goods, or class of goods.' That is to say, in order to get round section 33A you have only to impose a river due upon all goods and then the next day to say that under sub-section (*3*) you reduce the river due upon, say, tea. It seems to me absolutely unreasonable to say that if you have power to raise the rates or reduce the rates to be imposed upon any particular goods, or class of goods, you have not the same power in the beginning. At least I do not see where the harm comes in. If the words suggested are put in, the Port Commissioners will have the power, with the previous sanction of the Government, to have the rate reduced in respect of different goods. Of course it is quite conceivable that the Local Government may say that the river due must be imposed upon all goods, and if the Government says that there is an end of the matter, and the Commissioners will not be entitled to have any goods exempted. But it may be very advantageous that the rate should be different in respect of different goods—you may have one rate for one class of goods and a different rate for a different class. At any rate, when the previous sanction of the Government has to be taken, I do not see why the words may not be safely put in."

The Hon'ble MR. INGLIS said:—"I should just like to explain one point with reference to what the Hon'ble Dr. Asutosh Mukhopadhyaya has said that it would be within the discretion of the Commissioners, under sub-section (*3*), to reduce the rate on a particular article to zero. That, I think, is not quite the power they would have. Sub-section (*3*) says: 'Subject to the limits enacted by the foregoing sub-section, the Commissioners may, with the previous sanction of the Local Government, at any time or from time to time, by notification, raise or reduce the rate to be imposed, whether generally or on any particular goods or class of goods.' The Commissioners will only be able to propose that the rate of the said due shall not exceed four annas nor be less than one anna. I take it, then, that the powers of the Commissioners will be limited to varying the rate on all goods to as low as one anna or as high as four annas. They will not have the power of taking off the rate altogether. It is the object of the Bill that they should not have power to remove the rate, but they may have power to suggest to the Local Government that the rate may be as low as one anna."

The Motion was then put and lost.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, also moved that the following be added as sub-clause (*4*) to the same clause, namely:—

'(*4*) Such river due as may be imposed under this section shall be leviable and recoverable in like manner as any other tolls, dues, rates and charges payable under this Act.'

He said:—"I submit that this addition is necessary, for the reason that the toll which we are now authorising the Chittagong Port Commissioners to levy is a special toll. I would call the attention of the Council to sections 108 and 109 of the Calcutta Port Act, III of 1890. From this it will be seen that when

the additional toll was to be levied provision was made that such special toll shall be recovered and realised in the same manner as other charges recoverable under the Act. That being so, it becomes necessary for us to make a similar provision in this Bill because this toll did not exist before; it does not exist up till now, and it will only come into existence after the present legislation. Therefore it cannot be said that there is any provision for its realisation in the Chittagong Ports Act of 1887. Nor is there any general provision in that Act which would apply to tolls and charges leviable afterwards. Of course there is no suggestion at all in this Bill to the effect that this Act shall be read and taken as part of the Act of 1887 so that it cannot be said that what is already in the Act will equally serve the purpose so far as the realisation of the river due now to be levied is concerned. Therefore it is desirable that there should be a distinct provision to the effect that such tolls as will now be levied shall be recovered in the same way as other charges are recovered at present under the Act. I submit therefore that the amendment I have moved should be accepted by the Council."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"I am unable to support the amendment, and for the reason, that it is wholly unnecessary. Clause 3 of the Bill says that 'after section 33 of the said Act the following shall be inserted,' namely, the new section 33A.

"Therefore as soon as the Bill now before the Council becomes law we have the new section,—section 33A in the Chittagong Port Commissioners' Act. On looking at section 33, I find that if tolls, rates and charges payable to the Commissioners in respect of any goods are not paid they may be recovered in a certain way. Section 33A now becomes part of the Act and the river due described therein becomes payable to the Commissioners in respect of any goods under the Act, and therefore I submit section 38 will *ipso facto* apply and consequently the amendment proposed by my hon'ble and learned friend is wholly unnecessary."

The Hon'ble MR. GUPTA said:—"I agree with the Hon'ble Dr. Asutosh Mukhopadhyaya in thinking that this amendment is unnecessary, as the provisions of section 38 would apply to this new toll, because this section 33A becomes part of the Act, and the river due will be as much leviable under the Act as any other rate or charge now leviable, and the same procedure would consequently apply."

The Hon'ble RAI TARINI PERSHAD, BAHADUR, in reply said:—"I see the position taken by my hon'ble and learned friends, but I still maintain my opinion that there ought to be a distinct provision which will leave no doubt at all in the mind of anybody. As regards the matter I am now contending for, Your Honour will find that in Bengal Act IV of 1895 there is a distinct provision to this effect. Notwithstanding the remarks of the two Hon'ble Members who have opposed my amendment, I do not see my way to withdraw it."

The Hon'ble the PRESIDENT said:—"I do not think the Council will share the apprehension of the hon'ble mover, since it is a well-known fact that as soon as an amending Bill is passed, the portion engrafted into it becomes part of the original Act, the general provisions of which will apply equally to the later and to the original portions of the Act. In this particular case I would remind the Hon'ble Member that clause 3 of the Bill says that 'after section 33 of the said Act the following shall be added.' Then comes the new section 33A, empowering the Commissioners to impose a river due. There can, I think, be no doubt that the new clause becomes part of the original Act, and is incorporated in it."

The Motion was then put and lost.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, also moved that in clause 3 [33B] after the word "languages" the words "and characters" be inserted. He said:—

"This is merely a verbal amendment, but I would call the attention of the Council to section 33 of this very Act and also the corresponding section, section 128 of the Calcutta Port Act, in which we find the words 'and characters' are used. To use in one place the words 'language and characters,' and in another place simply 'language' might create some ambiguity. I therefore think it desirable that the words 'and characters' should be inserted. I do not think the Council will find any difficulty in accepting the amendment which, as I have said already, is only a verbal one."

The Hon'ble MR. INGLIS said:—"I accept the Hon'ble Member's amendment."

The Motion was put and agreed to.

Clause 4.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, also moved that in sub-clause (*a*) of clause 4, for the word "prepared" the word "sanctioned" be substituted. He said:—

"If the word 'sanctioned' is used, it will cover both 'preparation' as well as 'sanction.' This also is a verbal amendment, which I hope will be accepted by the Council."

The Hon'ble MR. INGLIS said:—"I accept the Hon'ble Member's amendment."

The Motion was put and agreed to.

The Hon'ble MR. INGLIS then moved that the Bill, as settled in Council, be passed. He said:—

"I do not think there is any occasion for me to add to the remarks I have already made as to the nature of the Bill."

The Motion was put and agreed to.

The Council adjourned to Saturday, the 28th March, 1903.

QUESTION AND ANSWER.

THE PROVINCIAL EDUCATIONAL SERVICE.

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, asked :—

Will the Government be pleased to inform the Council whether any action has been, or is likely to be, taken towards the improvement of the prospects of the Officers of the Provincial Educational Service in view of the hope held out by the late Sir Alexander Mackenzie contained in the following Extract from paragraph 20 of Government Resolution No. 1244, dated the 26th March, 1897 (General Department—Education):—?

"His Honour observes that owing to the narrowness of the scale of the Provincial Service, as compared with existing salaries, the prospects of officers in the lower classes are very discouraging . . . . He also observes that the Provincial Service of other Provinces are practically devoid of Class VIII on Rs. 150. Sir Alexander Mackenzie regrets this state of things, and, with a view to improving the prospects of Provincial Service Officers, he proposes at an early date to consider whether something may not be done by assigning a greater number of appointments to some of the intermediate classes."

The Hon'ble MR. EARLE replied :—.

"The late Sir Alexander Mackenzie, shortly after recording, in the Resolution referred to by the Hon'ble Member, his views on the prospects of Officers in the lower classes of the Provincial Educational Service, submitted to the Government of India certain proposals for the improvement of that Service. Those proposals, however, were not favourably entertained by the Government of India.

"The matter has lately come up again, and the question whether it is practicable to improve the prospects of the Provincial and Subordinate Educational Services is at the present time under the consideration of the Lieutenant-Governor."

THE BENGAL FINANCIAL STATEMENT FOR 1903-1904.

The Hon'ble MR. COLLIN, in laying on the table the Bengal Financial Statement for 1903-1904, with explanatory notes, said :—

"I will, with the permission of the Council, give the following brief account of the position. I will first deal with the year which is closing. It has been financially prosperous. The revenue which was estimated at Rs. 5,10,10,000 is now estimated at Rs. 5,23,65,000, showing an increase of about 13¼ lakhs There has been an increase of revenue from Stamps (2¼ lakhs) and from Excise 4 lakhs). The Sone Canals were utilised on a larger scale than before for irrigating the *rabi* crops of last year, with the result that an increased income of about 3¼ lakhs has been obtained. Land Revenue and Assessed Taxes each have brought in an increase of about a lakh, and the Miscellaneous receipts increased to the same extent, owing mainly to the lapse to Government of unclaimed deposits. The only important decrease of revenue was in connection with the Port of Calcutta, where Pilotage receipts fell off by Rs. 1,33,000.

"The estimate for expenditure during the year 1902-1903 was Rs. 5,37,18,000, but we have only been able to spend Rs 5,16,28,000, or a net decrease of Rs. 20,90,000. Large sums were allotted in the estimates for Police and for Education reforms. As to the former, it was decided to

await the result of the inquiries by the Police Commission before incurring any expenditure. The provision of four lakhs therefore which had been made for this purpose was not utilised. As regards Education, the Department was called upon to expend an increased grant of ten lakhs, given from Imperial Revenues, which involved recurring expenditure and expenditure on buildings. It was impossible to work out the necessary schemes at once, and there have therefore been savings of over four lakhs on this account. Much was done for the furtherance of Primary Education by grants to District Boards, and the expenditure of practically the whole grant was arranged for during the year and the necessary funds allotted. The release of prisoners on the occasion of His Majesty's Coronation gave a saving of about two and-a-half lakhs, under the head of Jails, and the milder outbreak of plague last year and the abandonment of plague camps and inspection stations reduced expenditure in the Medical Department by over four lakhs. There was a decrease of expenditure in connection with Surveys and Settlements, but this did not lead to any great reduction of the Survey programme. A considerable sum was provided for the appointment of an Additional Judge and other officers in the High Court, but it was not all spent, as the appointments were made late in the year.

"The cash balance at the end of the year will, according to the revised estimate, be Rs. 56,43,000. This includes a special grant of two lakhs from the Imperial Government for the construction of a new Surgical Ward in the Medical College Hospital. We are entitled to carry this balance forward and to spend during the next financial year all but Rs. 20,00,000, which must be retained as a permanent balance.

"The budget estimate for 1903-1904 provides for a revenue of Rs. 5,16,25,000, or an increase of Rs. 6,15,000 over the estimate of the year which is now closing. The increase is due to the progressive growth of the Stamp and Excise Revenues, which are expected to produce more than in the current year by 3 lakhs and 5½ lakhs, respectively. The Registration and Irrigation Departments will also give an increase of revenue, but we do not expect the large receipts from the latter Department that were actually obtained in 1902. On the other hand we cannot take credit for a grant of 6 lakhs, as in the budget of the current year, from the Government of India. A grant of 2 lakhs has been made as explained above, but it is included in the opening balance. The amount available for expenditure in 1903-1904 is Rs. 5,72,68,000, or 15½ lakhs more than in the current year. The method of disposing of this additional amount is shown in paragraph 6 of the statement which is in the hands of the Hon'ble Members.

"The programme of expenditure includes the re-organisation of two important departments of the Public Service, viz., that of the Judicial Branch of the Provincial Civil Service, and of the Executive Branch represented by Sub-Deputy Collectors. The re-organisation of the former, which includes the regrading of Munsifs, has already been sanctioned and given effect to during the current year, though not from the commencement of the year. Full provision has been made in the budget for next year. The re-organisation of Sub-Deputy Collectors has not yet been finally sanctioned.

"The budget provides also for additions of establishment in the Calcutta and the Railway Police Forces. In addition to the items of expenditure shown in paragraph 6 of the Financial Statement, we have provided for all the administrative and other requirements of Government on the same scale as for the year which is closing. A sum of four lakhs is reserved for general Police reforms which, it is hoped, we shall be able to carry out before the end of the year.

"Funds are provided for carrying on the Educational improvement inaugurated in the current year.

"The special grant of five lakhs made during the last two years to District Boards for improvements of district communications is to be repeated, and further help is to be given for the construction of feeder roads to railways.

"An effort is to be made to clear the old navigation channels in the east of the Province, and ample provision has been made for the construction of buildings and offices by the Public Works Department to enable them to overtake the arrears of work left by the reduction of such expenditure owing to famine and plague in the earlier years of the present contract. A list of the principal original Public Works, for which Rs 29,58,000 is provided, is given in paragraph 49 of the Statement.

"The Financial Statement will come up for discussion on the 4th of April, and my Colleagues and I shall in the meantime be happy to give to Hon'ble Members any information which they may require. We shall also be obliged if Hon'ble Members will extend to us the courtesy shown to our predecessors, and will give notice before the next meeting of the Council of any points which they propose to bring forward, so that we may be prepared with the necessary explanations."

EXPLANATORY NOTES ON THE BENGAL FINANCIAL STATEMENT FOR 1903-1904.

PART I.—General Review.

THIS is the eleventh occasion on which the Financial Statement for the Province of Bengal has been presented before the Council. On the first and second occasions the system of Provincial finance and the distinctive features of the five financial contracts with the Government of India, covering a period of 26 years, were explained at some length. That period expired on the 31st March 1897, and in the fifth statement the Hon'ble Mr. Risley explained the alterations which were made in the conditions of the expiring contract by the next settlement, which was made for five years commencing from the 1st April 1897. The total assignment made for Bengal at that time was Rs. 4,43,49,000, and the Revenue for the year 1897-1898, including an opening balance of Rs. 39,54,000, was Rs. 5,05,78,000. For the year 1903-1904, the revenue, added to an opening balance of Rs. 56,43,000, has risen to Rs. 5,72,68,000, including special grants from the Imperial Revenues of Rs. 10,00,000. The greater portion of the increase has been contributed by the progressive growth of the Stamp and Excise revenue, while there has been a steady improvement of Land Revenue, and of receipts from Provincial rates, Assessed taxes, Registration and Jails. On the expenditure side there were heavy charges, amounting altogether to over 32 lakhs of rupees, on account of Famine in 1897-98, and there was a large expenditure on account of Plague in 1899-1901. There has been a considerable increase of administrative charges under the head of Law and Justice, and the charges on account of public works have risen from 32 lakhs to over 58 lakhs. Special grants of five lakhs for Communications and of further amounts for feeder roads have been made to District Boards during 1901-1902 and 1902-1903. The settlement made in 1897 has been extended for special reasons for two years, and will expire at the end of the coming financial year.

(1) ACCOUNTS OF 1901 1902.

2. In the revised estimate for 1901-1902, as shown in last year's financial statement, the opening balance was taken at Rs. 42,62,000, the receipts of the year at Rs. 4,93,65,000, the expenditure at Rs. 4 89,19,000, and the balance at Rs. 47,08,000. The actual result proves to have been more favourable. The receipts improved by Rs. 2,03,847, chiefly under Jails (1¼ lakhs) and partly under Land Revenue, Forests, and Miscellaneous. The expenditure was greater by Rs. 5,677, and the year closed with a balance of Rs. 49,05,782.

(2) REVISED ESTIMATE, 1902-1903.

3. The budget estimate for 1902-1903 as passed by the Government of India accepted Rs. 47,08 000 as the opening balance, and provided for receipts aggregating Rs. 5,10,10,000 and an expenditure of Rs. 5,37,18,000, so that the year should close with a balance of Rs. 20,00,000. The revised estimate now passed provides for a revenue of Rs. 5,23,65,000 and an expenditure of Rs. 5,16,28,000. The net result is a surplus of Rs. 7,37,000 on the year's receipts against a deficit of Rs. 27,08,000 anticipated last year, giving a total improvement on the original estimate of Rs. 34,45,000. Including the opening balance of Rs. 49,06,000 as stated above the total receipts were Rs. 5,72,71,000, and deducting the expenditure of Rs. 5,16,28,000 the closing balance is placed at Rs. 56.43,000.

4. On the receipt side the revenue is expected to show an increase of Rs. 13,55,000, of which Rs. 2,25,000 is under Stamps, chiefly from court fee stamps; Rs. 4,00,000 under Excise, mainly due to better settlements and the general prosperity of the Province; Rs. 1,07,000 under Land Revenue; Rs. 1,00,000 under Assessed Taxes due to increased income-tax assessments;

Rs. 1,17,000 under Miscellaneous, chiefly under Unclaimed deposits; and Rs. 3,20,000 under Irrigation Major Works due to an unusual extension of irrigation in the Sone Canals for the *rabi* crop of 1902. Against these increases there are decreases of Rs. 45,000 under Jails, Rs. 1,33,000 under Marine caused by a falling off in Pilotage receipts in the port of Calcutta, and Rs. 34,000 under Education due to smaller receipts from High and Boarding schools.

5. The net decrease of expenditure is Rs. 20,90,000. Of this, Rs. 3,21,000 occurs under Land Revenue, under several heads such as (*a*) Survey and Settlements owing to a smaller outlay in the Damin-i-koh Government estate in the Sonthal Parganas, and the non-utilisation of the reserve of Rs. 70,000, (*b*) Charges for District Administration due to savings under Salaries owing to leave out of India and changes of officers and the non-utilisation of the grant for the reorganisation of the Subordinate Executive Service. There was also a saving of Rs. 2,07,000 under Law and Justice—Judicial Courts—due to the fact that the Additional Puisne Judge, Official Referee, and Assistant Official Referee, as well as additional establishments in the High Court, who were provided for in the budget, have not been entertained for the whole year, while there are savings under Criminal Courts, on account of the salaries of officers, a portion of which is debited to this head. There are savings of Rs. 2,43,000 under Jails owing to the release of prisoners on the occasion of His Majesty's Coronation; and of Rs. 5,41,000 under Police, chiefly owing to the non-expenditure of the amount of 4 lakhs provided for reforms, pending the report of the Police Commission, and also to savings in salaries and in the pay of the Police force both in Calcutta and districts. Under Education, there has been an apparent failure to expend Rs. 12,28,000, but as large amounts have been transferred to District Boards, and to the Public Works Department for educational works, the total actual savings only amount to Rs. 5,20,000. Among the amounts transferred, Rs. 5,60,000 have been made over to Local Funds chiefly in the shape of additional grants to District Boards for the following purposes:—

	Rs.
For the improvement of primary education ...	3,71,700
„ additional Sub-Inspectors of Schools ...	18,900
„ additional remuneration to teachers in primary schools	1,16,170
„ purchase of furniture, &c., in primary schools ...	5',815

Rs. 1,48,000 have been transferred to the Public Works Department from the educational allotment for school buildings. There are also savings under Salaries, and the grants for raising the status of the Dacca Survey School and for starting training colleges at Dacca and Hooghly have not been fully spent. No contribution to the proposed Provident Fund for teachers in primary schools has been made during the year, as the scheme has not been finally sanctioned, but the grant has been utilised as shown above in giving additional remuneration amounting to Rs. 1,16,170 to teachers in primary schools under the control of District Boards. The allotments made both for initial and recurrent expenditure from the special assignment of 10 lakhs sanctioned by the Government of India have not also been fully spent, and the deferred expenditure is expected to cause a saving of about 4 lakhs under Education in the Provincial account. This is included in the savings of Rs. 5,20,000 mentioned above. There are decreases of expenditure under Medical (Rs. 4,53,000), chiefly in the grant for plague charges and partly under Salaries; under Minor Departments (Rs. 65,000 chiefly caused by the non-utilisation of the provision of Rs. 50,000 for the establishment of a cattle-breeding farm at Pusa, a project which could not be carried out during the year. There were also savings in the grant for Cinchona Plantation and the Veterinary Department; and under Civil Works carried out by the Civil Department the sum of Rs. 88,000, provided for additional burial-grounds, has not been spent. Against these decreases there are increases of Rs. 62,000 under Refunds due to a special adjustment of the amount recovered from the Bettiah estate in previous years on account of survey and settlement work, and of Rs. 4,89,000 under General Administration, partly due to expenditure in connection with the Delhi Coronation Darbar. The accounts of the latter have been practically closed, and the expenditure after

deducting the amounts recovered by sales, or by transfers to other Departments, was Rs. 3,17,130. Of this amount Rs. 91,907 was on account of Railway charges and Rs. 2,917 for Telegraph and Postal charges, which should be taken as a set off against the expenditure.

(3) BUDGET ESTIMATE, 1903-1904.

6. The budget estimate for 1903-1904 as passed by the Government of India adopts Rs. 56,43,000 as the opening balance, and provides for receipts aggregating Rs. 5,16,25,000. Making up a total available of Rs. 5,72,68,000. The expenditure is estimated at Rs. 5,52,68,000, thus leaving closing balance of Rs 20,00,000. The opening balance has been increased by a grant of two lakhs of rupees made by the Imperial Government in the closing accounts of 1902-1903 for the construction of a Surgical Ward in the Medical College Hospital. Compared with the budget estimate for 1902-1903, the receipts for 1903-1904 excluding the opening balance show an increase of Rs. 6,15,000, while, as compared with the revised estimate, there is a decrease of Rs. 7,40,000. This increase is due to the improvement of the Stamp Revenue (three lakhs) and of the Excise Revenue five and-a-half lakhs). There are also increases of half a lakh under Registration and of Rs. 75,000 in Miscellaneous and in Irrigation Receipts. There are small decreases in some items of account which do not call for notice. The reduction of receipts, as compared with the revised estimate, is due to the absence of two large items, viz., the special assignments of six lakhs made in 1902-1903 by the Government of India for Civil Works, and of the two lakhs made for the Surgical Ward referred to above. Smaller receipts are also anticipated from Irrigation Major Works. On the expenditure side the total estimated charges for 1903-1904 are Rs. 5,52,68,000, against Rs. 5,37,18,000, the budget estimate for 1902-1903, and Rs. 5,16,28,000, the revised estimate for the year. The increase in the budget of 1903-1904 over the similar figures for 1902-1903 is Rs. 15,50,000, of which Rs. 13,88,000 are for the following purposes :—

	Rs.
Improvement of the status of Sub-Deputy Collectors (the grant being Rs. 1,00,000 against Rs 30,000 in 1902-1903)	70,000
Local allowances of Deputy Collectors for the Excise Department	5,000
Reorganisation of the Customs Department ...	20,000
Regrading of Munsifs and additional temporary Sub-Judges (the grant being Rs. 1,05,000 against Rs. 76,000 in the budget for 1902-1903) ...	29,000
Reorganisation of the Calcutta Police	50,000
Ditto of the Railway Police	28,000
Increased grant for pilotage allowances ...	55,000
Construction of a new steamer to replace the *Sarasti*	2,00,000
Installation of electric fans and lights in the Presidency General Hospital	30,000
Revision of the Imperial Gazetteer and the Statistical Account of Bengal (the grant being Rs. 40,000 against Rs. 25,000 in 1902-1903) ...	15,000
Extension of the Veterinary School and Hospital ...	38,000
Inspector of Mines	13,000
Dredger for the Circular and Eastern Canals ...	5,00,000
Increased grant for Civil Works by Public Works Department	2,85,000
Additional grants to District Boards for feeder roads (Rs. 1,50,000 having been granted in 1902-1903)	50,000
Total ...	13,88,000

The budget is explained more fully in the following paragraphs:—

PART II.—Detailed remarks on the Budget for 1903-1904.

RECEIPTS.

7. *Land Revenue.*—The total collections under this head in 1901-1902 amounted to Rs. 4,08,11,631, and the estimate for 1903-1904 as passed by the

About 1½ lakhs are to be recovered in Purnea on account of settlement charges, but they will be credited to another head of the accounts.

10. *Stamps.*—The budget estimate of the total revenue from Stamps for 1902-1903 was passed by the Government of India for Rs. 1,92,00,000. The actuals in 1901-1902 amounted to Rs. 1,90,05,559, and the returns from the Comptroller-General show that the receipts during the first ten months of 1902-1903 exceeded those of the corresponding period of the preceding year by Rs. 3,15,000. In view of these figures, the revised estimate for 1902-1903 has been passed for Rs. 1,95,00,000 and the estimate for 1903-1904

has been placed at Rs. 1,96,00,000 with reference to the gradual increase of revenue. The Provincial share is three-fourths of this sum, and amounts to Rs. 1,46,25,000 and Rs. 1,47,00,000 respectively.

11. *Excise.*—The revenue from Excise for 1902-1903 was estimated at Rs. 1,50,00,000. The actuals of 1901 1902 amounted to Rs. 1,50,25,698, and the figures for the first ten months of 1902-1903 show an increase of Rs. 6,63,000 over the actuals of the corresponding period of the preceding year, and the revised estimate for the current year has been adopted at Rs. 1,58,00,000. But looking to the annual increase of revenue under this head, the estimate for next year has been placed at Rs. 1,61,00,000. The Provincial share (one-half) amounts to Rs. 80,50,000.

12. *Provincial Rates.*—The actual collections of the public works cess in 1901 1902 amounted to Rs. 46,65,503, and the receipts in the first nine months of the current year show an increase of Rs. 2,65,000 over those of the corresponding period of last year. The revised estimate for the current year has accordingly been placed at Rs. 48,32,000, and the estimate for next year has been taken at Rs. 48,50,000. An increase is anticipated on the completion of revaluation works in certain districts. Under General Rates for the management of private estates the estimate of receipts is Rs. 1,42,000, and this added to the estimate for receipts of the Public Works cesses makes up the sum of Rs. 49,92,000 which appears in the abstract.

13. *Customs.*—The original estimate of Provincial receipts for 1902-1903 was Rs. 2,60,000, against Rs. 2,64,584, the actuals of 1901-1902. The collections in the first nine months of 1902-1903 showed a decrease of Rs. 24,000 as compared with those of the corresponding period of the previous year, and the revised estimate for 1902-1903 has been placed at Rs. 2,50,000. The estimate for next year has, however, been passed for Rs. 2,60,000, which is the sanctioned estimate for 1902-1903.

14. *Assessed Taxes.*—The budget estimate of receipts from income-tax for 1902-1903 was Rs. 57,00,000. The actual collections of last year amounted to Rs. 56,51,692 and those of the twelve months ending 31st January 1903 were Rs. 53,41,000. The revised estimate for 1902-1903 has been placed at Rs. 59,00,000, and the estimate for 1903-1904 would have been passed for Rs. 60,00,000 with reference to the gradual increase of revenue year by year, but for the remission of tax on incomes below Rs. 1,000 sanctioned by the Government of India. This remission is estimated to cause a loss in Bengal of Rs. 9,30,000, and the estimate has accordingly been placed at Rs. 50,70,000. The Provincial share (one-half) amounts Rs. 25,35,000. The remission, however, is not a loss to Provincial Funds, as it has been recouped by an assignment from the Government of India under Land Revenue.

15. *Forests.*—The total receipts under this head for 1903-1904 are estimated at Rs. 12,00,000, against Rs. 12,55,000, the budget estimate for 1902-1903. The Provincial share is one-half. The decrease is owing to a smaller sale of *sundri* wood in the Sundarbans and to the disforestation of the Singhbhum forests and also to the decreased revenue from *sabai* grass.

16. *Registration.*—The budget estimate under this head for 1902-1903 was Rs. 16,00,000. The actuals in 1901-1902 amounted to Rs. 16,69,663, and the collections of the first nine months of the current year show an increase of Rs. 20,000 over those of the corresponding period of the previous year. The revised estimate for the current year has been placed at Rs. 16,84,000, while the estimate for 1903-1904 has been passed for Rs. 17,00,000. The Provincial share of one-half amounts to Rs. 8,42,000 and Rs. 8,50,000 respectively.

17. *Interest.*—The receipts under this head have been entered at Rs. 3,60,000, thus:—

	Rs.
Interest on advances to cultivators	42,000
„ on drainage and embankment advances ...	64,000
„ on loans to landholders	7,000
„ on loans to Municipalities and other public corporations	1,86,000
„ on Government securities	14,000
Miscellaneous	47,000
Total ...	3,60,000

18. *Law and Justice.—Courts of Law.*—The actuals in 1901-1902 amounted to Rs. 8,01,684, and the estimate for 1903-1904 has been placed at Rs. 8,00,000. The revised estimate for the current year has, however, been passed for Rs. 8,08,000 with reference to the actuals of the first nine months of the year.

19. *Jails.*—The proceeds of Jail manufactures showed a steady increase up to 1900-1901, but received a check in 1901 1902. In view of the actuals of 1901-1902 and those of the first nine months of the current year, the revised estimate has been placed at Rs. 13,70,000, but the estimate for 1903-1904 has been passed for Rs. 14,17,000.

20. *Police.*—The estimate under this head amounts to Rs. 1,84,000, against Rs. 1,92,000, the revised estimate for 1902-1903, and Rs. 1,69,387, the actuals of 1901-1902. In 1902-1903 there were larger recoveries on account of punitive police.

21. *Marine.*—The budget estimate for 1902-1903 was Rs. 13,33,000. This has been reduced to Rs. 12,00,000 in the revised estimate with reference to the actuals of the first ten months of the current year owing to a falling off under Pilotage receipts in Calcutta. These receipts are of a fluctuating character, depending on the tonnage of vessels arriving and departing from the port, and the estimate for 1903-1904 has been passed for Rs. 12,71,000.

22. *Education.*—The estimate under this head is Rs. 7,28,000, against Rs. 7,12,000, the revised estimate for 1902-1903, and Rs. 7,04,553, the actuals of 1901-1902. The increase is expected mainly from the fees at high schools.

23. *Medical.*—The estimate under this head is Rs. 2,25,000, against Rs. 2,19,000, the sanctioned estimate for 1902-1903, and Rs. 2,07,659, the actuals of 1901-1902. The increase is due to an anticipated increase in the receipts from paying patients in hospitals.

24. *Scientific and other Minor Departments.*—The total receipts for 1903-1904 are estimated at Rs. 2,57,000, against Rs. 2,47,000, the sanctioned estimate for 1902-1903. The increase is under Cinchona Plantation receipts owing to anticipated larger sales of quinine and cinchona alkaloids.

25. *Miscellaneous.*—The receipts under this head fluctuate largely from year to year and it is difficult to forecast them with certainty. The estimate for 1903-1904, based on past actuals, has been placed at Rs. 8,50,000, against Rs. 7,76,000 and Rs. 8,93,000, the budget and revised estimates, respectively, for 1902-1903.

26. *Irrigation Major Works (Direct receipts).*—The budget estimate for 1902-1903 was Rs. 17,80,000, and the revised estimate is taken at Rs. 21,00,000, the receipts from both the Sone and Orissa canals being expected to be better than the budget owing to an unusually large *rabi* irrigation in South Bihar. The estimate for 1903-1904 has been passed for Rs. 18,45,000.

27. *Minor Works and Navigation in charge of the Public Works Department.*—The estimate of receipts for 1903-1904 is Rs. 6,00,000, against Rs. 5,70,000, the revised estimate for 1902-1903. An increase is expected from the Calcutta and Eastern Canals.

28. *Civil Works.*—The estimate of receipts by the Public Works Department for 1903-1904 is Rs. 2,00,000, which is the same as the budget estimate for 1902-1903, but the revised estimate for the current year has been placed at Rs. 2,20,000 owing to the anticipated increase in the Government share of the profits of the Darjeeling-Himalayan Railway. The estimate of receipts by the Civil Department is Rs. 2,64,000 against Rs. 2,60,000, the revised estimate for the current year. The estimate is based on the prospect of improved settlements to be made with farmers for ferries.

The estimate for 1903-1904 is Rs. 28,53,000.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 111.

[First Publication.]

JAPAN.

Uniform system of buoyage established.

THE British Admiralty has given notice (No. 185 of 1903) that a uniform system of buoyage has been established in Japanese waters as follows:—

The buoys are principally conical in shape, but are characterised by colour and by the form of topmark.

The term "starboard hand" means the right-hand side approaching from seaward. the term "port hand" means the left-hand side approaching from seaward. With reference to the Naikai (Seto Uchi or Inland) sea and other straits, the term "approaching from seaward" refers to an approach to an arbitrary point in the strait, or sea, which is termed the "Head waters," and which point will be fully described in the forthcoming edition of the Sailing Directions for Japan and the adjacent seas, formerly published as China Sea Directory, vol. IV., now in progress. The term "outer end of middle ground" is given to the buoys moored at the seaward extremity of middle grounds; to those at the inshore extremity, the term "inner end of middle ground" is applied. The buoys or beacons marking shoals of small extent are named isolated danger buoys or beacons.

A starboard-hand buoy is conical, painted red, and surmounted by a red cone base downwards.

A port-hand buoy is conical, painted black, and surmounted by a cylindrical topmark.

The outer end of a middle ground is marked by a conical buoy, painted in black and white horizontal bands, surmounted by a diamond as a topmark.

The inner end of a middle ground is marked by a conical buoy, painted in red and white horizontal bands, surmounted by two cones, points together, in the form of an hour-glass, as a topmark.

Isolated dangers which may be passed on either side are marked either by a conical buoy, a spar buoy, or a cylindrical beacon, but always painted in red and black horizontal bands, and surmounted by a red ball as a topmark.

A wreck is marked by a bell-shaped buoy painted green.

This Notice affects China Sea Directory, vol. IV, 1894, page 18.

RABI CROPS IN BENGAL, 1902-1903

THE following note is published for general information.

A. EARLE,
Offg. Secy. to the Govt. of Bengal.

The 4th April 1903.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Forecast of the Rabi *Crops of Bengal for 1902-1903.*

Explanatory.—This forecast furnishes estimates of the area and outturn of the *rabi* crops, with the exception of wheat, cotton, oilseeds and sugarcane, for which separate forecasts are issued. The chief crops dealt with in this forecast are barley, gram, other cereals and pulses, summer rice, potatoes, tobacco and poppy.

2. *The character of the season.*—The last monsoon terminated early, and was generally deficient, except in North and East Bengal. But in September there was good rain in Bihar, which produces the bulk of the *rabi* crops of the Province and in Chota Nagpur ; in Northern Bengal the fall was greatly in excess of the normal, while elsewhere it was, on the whole, slightly in defect. The subsequent months to the end of January were unusually dry almost everywhere. There has been general rain in February and March, which has slightly improved the prospects of the crops in many districts. On the whole the season was unfavourable at the time of sowing and growth of the *rabi* crops, which have also suffered in a few districts from insect pests.

3. *Area sown.*—Excluding the area sown with wheat, cotton, oilseeds and sugarcane, the normal area sown with the various *rabi* crops in the Province amounts, according to the district returns which are summarised in Appendix I, to 10,071,800 acres, against 10,114,000 returned last year. The estimated normal areas under these crops have been revised in some districts in the light of fresh surveys and other enquiries. The area actually sown this year with these crops is estimated at 9,241,700 acres, against 8,934,200 acres sown last year. The failure to sow the full normal area is due to drought at the sowing season.

4. *Outturn.*—From the summary of the district returns contained in Appendix I, it will be seen that only 7 districts in the Province (Birbhum, 24-Parganas, Rajshahi, Darjeeling, Pabna, Faridpur and Backergunge) report a crop of 100 per cent. or over. In 13 districts the estimate varies between 90 and 99 per cent., and in 13 others, between 80 and 89 per cent. In the rest the outturn is estimated at between 50 and 79 per cent., Bankura, Nadia and Jalpaiguri only returning less than 60 per cent. According to the estimate of the District Officers, the outturn for the Province as a whole amounts to only 86 per cent. of a normal crop, as compared with a 71 per cent. crop estimated by them last year. Allowing for the tendency to underestimate, and for the benefit which the recent rains have effected, it is safe to anticipate a 90 per cent. outturn for the Province for all the *rabi* crops taken together, and an average or 100 per cent. outturn in the case of the summer rice crop.

5. *Gross outturn of summer rice.*—Taking the Provincial outturn at 100 per cent. or a normal crop, the probable gross yield of summer or *boro* rice in the Province will amount to 3,2 1,100 cwts. as shown in Appendix II of this forecast. The total yield of this crop last year was estimated at 3,075,200 cwts.

Offg. Director of Land Records,
and Agriculture, Bengal.

NOTIFICATION.

No. 1525.—The 7th April 1903.—The following is published for general information.

A. EARLE,
Offg. Secy. to the Govt. of Bengal.

REPORT OF THE BRUCE INSTITUTION

FOR THE YEAR 1902.

I.—*Control.*—During the year under review, the Hon'ble Mr. Justice Sale, whose term of office had expired, was re-appointed as a Governor under rule 10 of the scheme for the management of the Institution. Mr. Geo. Roddick was also appointed as a Governor, in the place of the late Mr. Geo. Irving. At a meeting of the Governors held on the 15th August the following resolution was recorded regarding the services of the late Mr. Irving to the Bruce Fund:—"Resolved that the Governors of the Bruce Institution desire to place on record their deep regret at the death of Mr. Geo Irving, who for more than ten years had been a member of their Board, and their sense of the excellent work he had done as a member of that Board. They consider he had proved himself in every way a true friend of the Bruce orphans." Mr. A. Pedler, F.R.S., C.I.E. (Honorary Secretary), was absent for more than four months on the Universities Commission at Simla. Mr. J. S. Slater acted as Honorary Secretary during this period.

The following is a list of the Governors at the close of the year:—

The Hon'ble the Chief Justice of Bengal ... ... } *Ex-officio.*
The Most Revd. the Lord Bishop of Calcutta ... ... }
The Inspector-General of Civil Hospitals, Bengal ... }
The Chairman of the Calcutta Municipality ... ... }
The Director of Public Instruction, Bengal ... ... }
The Hon'ble Mr. Justice Sale.
The Hon'ble Mr. L. P Pugh (Barrister-at-law).
The Revd. A. Kitchin (Offg. Archdeacon).
The Very Revd. Father V. Marchal, S.J.
The Revd. J. E. Robinson, D.D.
H A. Bamford, Esq.
Geo. Roddick, Esq.

II.—*Capital and Income.*—The capital of the Institution stood as in the previous year at Rs. 10,51,200, of which Rs. 10,46,200 is held by the Comptroller-General in the form of a 3½ per cent. stock certificate of the year 1885, and the balance, Rs. 5,000, is invested in 3½ per cent. Government securities of the year 1879, and is held by the Secretary and Treasurer, Bank of Bengal. The annual interest on the capital amounts to Rs. 36,792 which is placed to the credit of the Institution in the Bank of Bengal.

III.—*Election, Vacancies, etc.*—The annual election was held in the month of January. For the 10 vacancies advertised, 51 applications were received, but four more vacancies occurring shortly afterwards, 14 girls were elected on the recommendation of a Sub-Committee consisting of the Very Rev. Father V. Marchal, S.J., the Rev. A. Kitchin, Rev. J. E. Robinson, D.D., and Mr. Geo. Irving. Of the girls elected, two were placed in the Loretto Boarding School, Entally, three in the Loretto Orphanage, Entally, four in the Calcutta Girls' School, two in the Pratt Memorial School, one in St. Paul's Mission Home, one in La Martinière, and one in the Old Church Parochial Home. Of the girls who had been withdrawn, eight had attained the age of seventeen years, the limit ordinarily allowed under the rules. One girl who had been continuously absent for over two years on account of ill-health was removed from the list of foundationers, so as to allow of another girl being elected in her place. Of the girls who had left during the course of the year, one found employment as a pupil teacher in the school in which she was educated. Another girl after passing the First Arts Examination has been admitted as a student at the Medical College, Calcutta. Another has taken up the study of Kindergarten,

while another girl found a place in the Bengal Telephone Company. There were two deaths among the foundationers during the year,—one from tuberculosis and the other from peritonitis.

At the close of the year there were 144 girls on the foundation, against 142 in the preceding year. They were distributed as follows :—

Loretto Convent, Entally—

The following table affords particulars as to the class and religion of the foundationers at the close of the year :—

3. Father, or both parents alive	2	3	2	7
Total ...	56	55	33	144

IV.—*Education and Maintenance.*—The nature of the education imparted to the girls on the foundation is generally that prescribed for primary and middle schools for Europeans. In exceptional cases a higher education is given. Parents and guardians are allowed to choose any school for the education of their children or wards, that has been approved by Government as suitable for the education and maintenance of Bruce foundationers. A girl is not ordinarily allowed to remain in school after she has attained the age of seventeen years, when an outfit grant of Rs. 50 is usually given to enable her to start in life. If, however, a girl elects to take up teaching as a profession, some extension of time is generally allowed, if the Governors consider her fit to take up higher studies. One such extension was granted during the year. Short extensions, not extending over a few months, are also generally allowed to enable the foundationers to appear at the examination held under the Code of Regulations for European Schools. Three such extensions were granted during the year. The end sought is to fit the girls for a respectable and useful station in life.

The average monthly cost for the education and maintenance of each girl on the foundation amounted to Rs. 19-6-6, against Rs. 19-4-0, in the preceding year. The year opened with a balance of Rs. 17,591-9-1 and closed with a balance of Rs. 17,681-1-0.

The total amount paid under the different heads of expenditure was as under :—

V.—*Inspection.*—Mr. H. A. Bamford was appointed Visiting Governor for the first half and re-appointed for the second half year. His reports were on the whole satisfactory. Two cases of alleged ill-treatment of foundationers by school officials were investigated by him and found to be groundless. Mr. Bamford states that he found the foundationers well cared for in every way, and progressing satisfactorily. Annual reports are also received from the school authorities, in regard to the conduct, application, progress, health, and attendance of the foundationers. These reports have generally been satisfactory.

VI.—*Meetings.*—Four meetings were held during the year, but there was no resolution of importance calling for special mention, the business for the most part being of a formal character.

RESOLUTION ON THE TRIENNIAL REPORT ON THE LUNATIC ASYLUMS IN BENGAL FOR THE YEARS 1900, 1901 AND 1902.

MUNICIPAL DEPARTMENT—MEDICAL.

Calcutta, the 6th April 1903.

RESOLUTION—No. 1731Medl.

READ—

The Triennial Report on the Lunatic Asylums in Bengal for the years 1900, 1901 and 1902.

READ also—

The Returns for 1901 and the Report on the Lunatic Asylums for 1900, and the Resolutions recorded by Government thereon.

1. THIS is the first Triennial Report on the Lunatic Asylums in Bengal, and it has been submitted with commendable punctuality. Due regard has been paid to the orders of Government in respect of the character and extent of the report.

2. The number of lunatics, both European and native, in all the asylums in the Province at the commencement of each year of the triennium under report was 926 in 1900, 943 in 1901, and 1,009 in 1902, showing a steady rise. At the close of the year 1902, there were 1,033 lunatics under detention in the asylums. The proportion of criminal lunatics to the total asylum population averaged a little over 50 per cent.

3. Complaint is made of the want of accommodation in the European Asylum at Bhowanipore. The asylum has accommodation for 42 patients and the maximum number on any one night was 10. It appears that there is a considerable demand for the admission of mild cases for which the asylum was not originally intended, but to which it is difficult to refuse admission, and it is reported that 38 per cent. of those who were admitted in 1902 were cured and discharged during the year. Even if greater care be taken to admit only dangerous cases, the margin of available accommodation is too small, and the question of increasing the accommodation at this asylum is under consideration. In the meantime new wards for females have recently been completed and made available for occupation.

There was slight overcrowding in the native asylums at Dacca and Patna, but this inconvenience will be removed as soon as the new Central Asylum at Berhampore is completed and ready for occupation.

4. In more than 50 per cent. of the number of admissions into the asylums during the triennium the causes of insanity could not be ascertained. This proportion is unduly large, and the Lieutenant-Governor desires to point out emphatically that it is the duty of committing officers to make the fullest enquiry into every case, so as to ascertain, as far as possible, the antecedents of lunatics, and the circumstances which led to their loss of reason. It is manifest that information of this kind would greatly assist the medical officers in dealing with the cases. Instructions have lately been issued by Government in regard to the preparation of the medical history sheets of lunatics committed to asylums, and it is hoped that a careful compliance with those instructions will produce better results. Among ascertained cases an increasing number, amounting to 12 per. cent. in 1902, were attributed to the abuse of ganja.

5. The general health of the inmates of the asylums was satisfactory, except in the year 1900, when a large number of patients were treated for short periods. There is a growing increase in the number of cases of phthisis, especially in the Dacca Asylum, where the figures for the three years were 12 in 1900, 13 in 1901 and 29 in 1902. The Inspector-General of Civil Hospitals has submitted a proposal to construct a separate ward at this asylum for the treatment of such cases, and this is now under the

consideration of Government. The average death-rate in all the asylums for the triennium was 8·73. The death-rate was highest in the Dacca and Patna Asylums, where it was mainly due to phthisis and lung diseases. It is satisfactory to find that the death-rate at Berhampore, where the new Central Asylum is to be located, was the lowest in the Province. Special attention was paid everywhere to the diet and clothing of lunatics during the past three years, and various amusements and suitable employment were provided.

6. The average annual income from paying patients was Rs. 15,766, and the average net receipts from manufactures was Rs. 6,650. Expenditure on all the asylums averaged Rs. 1,33,103 a year, during the three years covered by the report, and the average cost of each lunatic was Rs. 135. The mean cost for European lunatics was Rs. 425, and for native lunatics Rs. 100.

7. The thanks of the Lieutenant-Governor are due to Colonel Hendley for his report. His Honour agrees with him in the conclusion that the asylums were carefully and efficiently managed by the officers who held charge of them during the triennial period under review.

By order of the Lieutenant-Governor of Bengal,

E. W. COLLIN,

Offg. Secretary to the Govt. of Bengal.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

JAPAN.

Uniform system of buoyage established.

THE British Admiralty has given notice (No. 185 of 1903) that a uniform system of buoyage has been established in Japanese waters as follows:—

The buoys are principally conical in shape, but are characterised by colour and by the form of topmark.

The term "starboard hand" means the right-hand side approaching from seaward, the term "port hand" means the left-hand side approaching from seaward. With reference to the Naikai (Seto Uchi or Inland) sea and other straits, the term "approaching from seaward" refers to an approach to an arbitrary point in the strait, or sea, which is termed the "Head waters," and which point will be fully described in the forthcoming edition of the Sailing Directions for Japan and the adjacent seas, formerly published as China Sea Directory, vol. IV., now in progress. The term "outer end of middle ground" is given to the buoys moored at the seaward extremity of middle grounds; to those at the inshore extremity, the term "inner end of middle ground" is applied. The buoys or beacons marking shoals of small extent are named isolated danger buoys or beacons.

A starboard-hand buoy is conical, painted red, and surmounted by a red cone base downwards.

A port-hand buoy is conical, painted black, and surmounted by a cylindrical topmark.

The outer end of a middle ground is marked by a conical buoy, painted in black and white horizontal bands, surmounted by a diamond as a topmark.

The inner end of a middle ground is marked by a conical buoy, painted in red and white horizontal bands, surmounted by two cones, points together, in the form of an hour-glass, as a topmark.

Isolated dangers which may be passed on either side are marked either by a conical buoy, a spar buoy, or a cylindrical beacon, but always painted in red and black horizontal bands, and surmounted by a red ball as a topmark.

A wreck is marked by a bell-shaped buoy painted green.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; d, drizzling rain; p, passing temporary showers; t, thunder; ∠, lightning; ⚡, strong wind.

Uniform system of buoyage established.

THE British Admiralty has given notice (No. 185 of 1903) that a uniform system of buoyage has been established in Japanese waters as follows:—

The buoys are principally conical in shape, but are characterised by colour and by the form of topmark.

The term "starboard hand" means the right-hand side approaching from seaward, the term "port hand" means the left-hand side approaching from seaward. With reference to the Naikai (Seto Uchi or Inland) sea and other straits, the term "approaching from seaward" refers to an approach to an arbitrary point in the strait, or sea, which is termed the "Head waters," and which point will be fully described in the forthcoming edition of the Sailing Directions for Japan and the adjacent seas, formerly published as China Sea Directory, vol. IV., now in progress. The term "outer end of middle ground" is given to the buoys moored at the seaward extremity of middle grounds; to those at the inshore extremity, the term "inner end of middle ground" is applied. The buoys or beacons marking shoals of small extent are named isolated danger buoys or beacons.

A starboard-hand buoy is conical, painted red, and surmounted by a red cone base downwards.

A port-hand buoy is conical, painted black, and surmounted by a cylindrical topmark.

The outer end of a middle ground is marked by a conical buoy, painted in black and white horizontal bands, surmounted by a diamond as a topmark.

The inner end of a middle ground is marked by a conical buoy, painted in red and white horizontal bands, surmounted by two cones, points together, in the form of an hour-glass, as a topmark.

Isolated dangers which may be passed on either side are marked either by a conical buoy, a spar buoy, or a cylindrical beacon, but always painted in red and black horizontal bands, and surmounted by a red ball as a topmark.

A wreck is marked by a bell-shaped buoy painted green.

RESOLUTION ON THE ANNUAL ADMINISTRATION REPORT OF THE OPIUM DEPARTMENT FOR 1901-1902.

REVENUE DEPARTMENT—OPIUM.

Darjeeling, the 16th April 1903.

RESOLUTION—No. 49T.—R.

READ—

The Report on the Annual Administration of the Opium Department for the year 1901-1902 (1st November 1901 to 31st October 1902).

The inconvenience of having different years for factory and administrative purposes having been brought to the notice of Government, the period of the opium administrative year, which runs from September to August, was, with the sanction of the Government of India, altered so as to correspond with the factory year running from November to October. In consequence of this change, and with the sanction of the Government of India, the date for the submission by this Government of the Annual Administration Report of the Opium Department was altered from the 1st March to the 1st April, and the Board were authorized to submit their Report to this Government on the 1st March, instead of on the 1st February, as hitherto. The Board's present Report has been prepared in accordance with the changes sanctioned, and it was

submitted to Government on the 6th March. The tables appended to the Report have been prepared on the lines finally approved by the Government of India in their orders of the 25th October 1902.

2. In the Bihar Agency, Mr. Bright received charge from Mr. Blyth on the 16th April, and held the appointment during the remainder of the year. In Benares Mr. Baillie proceeded on leave on the 9th July, and Mr. House officiated for him till the close of the year. The Hon'ble Mr. Bolton, who was in charge of the Miscellaneous Revenue Department of the Board from 25th November 1901 to 25th May 1902, made a useful tour of inspection through several districts in the Benares Agency. Messrs. Baillie and House, who held charge of that Agency in succession during the year, between them spent 196 days on tour, inspecting all the divisions in the Agency and more than half the subdivisions. On the other hand, the tour of the Opium Agent of Bihar was very short. Ill health interfered with Mr. Blyth's tour, while Mr. Bright, who took charge after the completion of the cold weather and was unacquainted with the working of the Department, was necessarily detained a good deal at head-quarters The Board notice the mechanical nature of the inspections made of some Assistants' offices in the Benares Agency. The Lieutenant-Governor endorses their opinion that a brief tour in an Assistant's charge is likely to convey a fairer estimate of the state of the work than the perusal of office records only, while it conduces to more effective supervision. His Honour also concurs in the view that such tours are particularly beneficial, and should be arranged in subdivisions where the Assistants are known to be inexperienced.

3. There was some improvement in check-measurements in both Agencies, due to the fact that the number of officers employed on this work was greater than in the preceding year. The percentage of the area test-measured to the total measured cultivation is, however, still very low in Bihar, and the Lieutenant-Governor trusts that this matter will receive especial attention in future. His Honour is glad to observe that the Board will henceforth call for and submit information regarding the proportion of cases in which the area recorded by the departmental subordinates was found to be incorrect.

4. In the Bihar Agency there was a further small decrease in the area which the raiyats engaged to cultivate. This decline was general in all the sub-agencies, except Bettiah, Hazaribagh, and Tirhut. The reasons given for the decrease are various, but none of the explanations given appear to be altogether satisfactory. The most important feature of the year has been the introduction throughout the Bihar Agency of the alternative system of direct payment to the raiyats, and the Lieutenant-Governor has read with interest the Agent's remarks upon its merits, quoted by the Board in their Report. The decrease in the area settled in the Benares Agency in 1900-1901 was to some extent made good during the year under review. While the proportion of failures due to non-fulfilment of engagements in this Agency was far less than in Bihar, the total area so lost was considerably in excess of that reported in the previous year.

5. The Lieutenant-Governor notices with pleasure that there has been a marked improvement in the Benares Agency in the proportion of personal attendance of cultivators at settlements. The results in Bihar are, however, disappointing. His Honour agrees with the Board that until the raiyats abandon their reliance upon the *khatadar* in favour of personal attendance, one of the main objects of the alternative system still remains unachieved.

6. The year was characterised by a failure of the rains in both Agencies. In Bihar, south of the Ganges, the season was not discouraging, but north of the river, especially in Bettiah and Motihari, it was most dispiriting. In Benares the absence of rain delayed sowings: blight appeared in several districts, and some damage was caused to the crop by hail in Ghazipur and Sitapur. As compared with the averages for the preceding seven years, the average outturn per bigha showed a decline of 10 chitaks in the Bihar Agency and a rise of 7 chitaks in Benares. There was a marked falling off in the amount of Nepal opium brought into the three frontier sub-agencies in Bihar, although another weighment centre was opened at Umgaon, in the Darbhanga district. The decline is attributed to the failure of the season in

Nepal owing to drought. The Lieutenant-Governor is glad to notice that the advances made in both Agencies for the construction and repair of wells were considerably in excess of those made in the preceding year. His Honour agrees with the Board's remark that the figures given in regard to Bihar indicate a satisfactory and substantial advance on the available means of irrigation. In the Benares Agency the figures for the year in this respect exceeded all previous records, with the exception of those for the famine year of 1896-1897. The amendment of the rules regulating well advances has, it is explained, facilitated their distribution in this Agency.

7. It is satisfactory that the process of manufacture was not complicated, as in the preceding year, by the low consistence of the drug available. The average consistence at each factory was slightly in excess of the standards fixed.

8. The expenditure for the year under review shows an increase of over six lakhs in the Bihar Agency, and of about seven thousand rupees in Benares. The increase in Bihar is due to the larger outturn and the high consistence of the drug

9. During the calendar year 1902, 48,000 chests of provision opium were sold in equal proportions from Bihar and Benares. As compared with the results of the previous 12 months, the average prices of Bihar and Benares opium realized from November 1901 to October 1902 showed a decrease of Rs. 170 and Rs. 176 per chest, respectively—a result which is said to be mainly due to the fall in the exchange value of silver. The total outturn of provision opium during the year was 44,724 chests. There will be a reserve of 15,024 chests on the 1st of January 1904.

10. The Board's proposal to abolish the system of *khurchan*, so far as the Benares Agency is concerned, is under the consideration of Government. The experiment of using the survey maps and records in connection with opium measurements was undertaken, during the year, in one *kothi* of the Tirhut Sub-Agency. The Board have not yet come to any final conclusion in the matter, but it is stated that the Departmental officers are not favourably impressed with the plan. The Lieutenant-Governor will await a further report on this subject.

11. Since the submission of the Board's Report, orders have been received from the Government of India, sanctioning the proposals for the revision of the Opium Manuals. The Government of India have lately been addressed as regards the eligibility of officers of the Opium Department for the appointment of Factory Superintendent, and their orders are awaited.

12 The Lieutenant-Governor desires to thank the Board for their efficient administration of the Opium Department during the year under review.
